

County and Unitary Authority breakdown of figures used in the Review of the South West Biodiversity Targets

The following are guidance only and do not represent the actual targets

To fully understand these figures please read the report 'Review of South West Biodiversity Targets', March 2006.

Important points:

- **These figures will not appear in the Regional Spatial Strategy - only the regional figures will be used in the RSS.**
- **Within the RSS, the Natural Areas and/or local authority areas will be identified for targeting maintenance and restoration/expansion of Priority Habitats, but quantitative targets will not be set for these.**
- **The SW Regional Biodiversity Partnership does not suggest that the following figures set local BAP targets. Further work would be needed at the local level by local partnerships before this can be done.**

Bristol Regional Environmental Records Centre (BRERC)

March 2006

These figures are for guidance only – they are not targets and are not comprehensive – they are a by-product of the review process
BRERC 16 December 2005

County/ Unitary Authority	Habitat		Maintenance target (Ha)	*Restoration/Expansion target (Ha) by		
				2010	2020	2030
Somerset County	Water and Wetlands	Coastal and Floodplain Grazing Marsh	28207	232	695	1158
		Reedbeds	483	#	#	#
		Fens	7	#	#	#
		Lowland Raised Bog	Unable	Unable	Unable	Unable
		Chalk Rivers	Unable	Unable	Unable	Unable
		Mesotrophic Lakes and Eutrophic Standing Water	Unable	Unable	Unable	Unable
